

We are making important investments in our station—and our future.

- With funding from our **Responding Together** campaign, we are expanding our station house and converting space into apartments for volunteers.
- The on-site apartments will help us achieve our highest priority goal: to recruit **the next generation of fire fighters** to carry on our mission.
- Having fire-fighters on-site round-the-clock will also save vital minutes, allowing **faster emergency response times**.

"We are so proud that Station 28 has served our community for 120 years."

UNION FIRE ASSOCIATION

When you need us, we'll be there—24/7/365.

- We are a **mainly volunteer** company with members drawn from every segment of our local community.
- Each of our fire fighters completes more than **200 hours of training**.
- We answer almost **500 calls each year**—and that number is growing.
- Besides fires, we respond to carbon monoxide alarms and hazmat leaks, free people trapped in elevators, educate children on fire safety—**and more**.

“Union Fire Association is an invaluable asset to our community that we can't take for granted.”

Join us in Responding Together.

- UFA relies on a combination of municipal funding and **essential support from private donors**.
- To complete our planned station house improvements, we must reach our **\$1.4 million campaign goal**.
- By expanding the circle of donors within our community who support UFA, **we can and will achieve our goal**.
- All of us can't be fire fighters, but **we can all do our part** in *Responding Together*.
